

From the chief driving instructor:

## **Don't be that guy !**

“This is vintage racing. This is not professional racing in which your livelihood depends on your finishing position. This is not class racing where glory is based on your finishing position.  
**There is no prize money and no trophy!**

In vintage racing, you win by having a safe, sane, fun competitive race with someone and then sharing the experience with them at the end of the day over a beer. Every racer appreciates smooth and consistent driving and it inspires everyone to a better performance.

If you are:

- surprising other drivers by “showing up” unexpectedly,
- chopping their lines, blocking, dive bombing,
- using slower cars as rolling chicanes,
- ignoring flags-especially **yellow flags**,
- and are generally scaring the hell out of your fellow competitors,

you are doing something very wrong!

Everybody will notice you—for all the **wrong** reasons - don't be that guy!"
