

October 13-15, 2023
Ozarks International Raceway
Gravois Mills, Missouri

VSCDA closes out our 45th Year of vintage racing with a roar as we return to the Ozark International Raceway for the second annual Ozark's Vintage Festival. Join us for Thunder in the Ozarks as we continue the tradition of offering the best value in vintage racing with the most track time and competitive race groups. This world class track located in the heart of the Ozarks features 3.97 miles of paved road-course racing with 19 turns and 1,200 feet elevation change in a single lap. This is a technical track that will take a bit of time to master. So, we have planned this event to maximize track time for all. That means no specialty races, no enduro, just plain old track time. Practice and qualifying events will be 25-30 minute and all races are 30 minutes. VSCDA is famous for the value it offers the vintage racer and the amount of track time you get at our events. Come join us at our second annual event!

The friendships you build with your fellow racers is as important as racing itself. There is catered dinner at the track both Friday and Saturday evening. The dinners will be held in the garages so everyone will have a chance to tell their lies and stories.

During the day, food will be available from a variety of food trucks offering something for everyone.

There is plenty of paved parking in the paddock areas and a limited number of garages are available to rent.

***T-Shirt limited to the first 200 entrants**

The Regalia Hotel & Conference Center offers comfortable, spacious rooms and resort amenities without the resort price. Add in our great customer service and quiet, scenic location and you'll want to stay and play with us every time you visit Lake of the Ozarks. We are located just minutes from great shopping, restaurants, golf, and local wineries, making the daily grind seem a million miles away.
